

Since 2002, Windvision Group is an independent renewable energy developer with offices in Belgium, France and Spain. Thanks to our international, multicultural and entrepreneurial team, we develop, finance, build and operate creative energy infrastructure projects over 10MW capacity.

It is the combination of expertise, flexibility and a "can do" mentality that makes Windvision an excellent partner for the realization of ambitious green energy projects. Our constant and transparent communication with all parties involved is our key differentiator to succeed.

The energy we promote in our projects, we also want to spread as an employer. Windvision guarantees a young and dynamic team in which personal development and positivism is highly valued. The enthusiasm and flexibility that we expect from our employees we also impose on ourselves, resulting in good cooperation.

For our Belgian development team, situated in Leuven, we are looking for:

RENEWABLE ENERGY BUSINESS DEVELOPER (INTERNSHIP)

KEY ACTIVITIES:

- Support all activities in the prospection process for wind, solar or storage projects
- Prepare, apply, and optimize the prospection process
- Support on prospection visits and negotiations with different types of stakeholders (landowners, environmental municipality advisors, etc.) at first, with the purpose to prospect/negotiate independently as soon as possible
- Quickly learn and apply the right argumentation to promote renewable energy in general and wind and solar energy in specific
- Quickly learn and apply the different regulations to obtain construction and environmental permits in Wallonia
- Set-up cost analysis for each project
- Project management support
- Prepare impactful presentations

PROFILE:

- You are in a master's program (preferred) in business engineering, Engineering, Bioengineering, Law or Earth science (last year of bachelor's degree considered)
- You are fluent in French and English (Dutch is a +)
- You have a proven interest in the energy sector and/or sustainability
- You have excellent communication skills (writing and speaking)
- You can perform your duties with the necessary care, attention and punctuality, without losing the general framework.
- You are proactive and empathic, a real team player
- You have a driving license
- You are available for 6 months (4 months will be considered as well)

OFFER :

- We offer you an interesting and hands-on internship, a unique opportunity to discover the world of the development of renewable energy projects in a fast growing company with a strong entrepreneurial spirit
- Recruitment opportunity at the end of the internship
